-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 09 September 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Objections***

2. Claims 3, 5, 11, and 13 are objected to because of the following informalities:

In claim 3, line 4, "said alarm signal" should read - - an alarm signal - -.

In claim 5, line 3, "said alarm condition" should read - - an alarm condition- -.

In claim 11, line 4, "said alarm signal" should read - - an alarm signal - -.

In claim 13, line 3, "said alarm signal" should read - - an alarm condition - -.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the

Art Unit: 2857

reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 9, 14, and 25 are rejected under 35 U.S.C. 102(e) as being anticipated by U. S. Patent No. 6,920,107 to Qureshi et al.

With respect to claims 1, 9, 14, and 25, Qureshi et al. disclose a method of operating a communications network including a firewall comprising the steps of: monitoring delays associated with the closing of ports corresponding to communications sessions following the termination of said communications sessions as indicated by session control signals (see col. 16, lines 29-41); and generating an alert signal when a monitored closing delay exceeds a preselected threshold (see col. 16, lines 42-57).

### *Claim Rejections - 35 USC § 103*

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2-5, 10-13, 15-17, and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Qureshi et al. in view of U. S. Publication 2005/0050377 to Chan et al.

As noted above, with respect to claims 2, 3, 5, 10, 11, 13, 15-17, and 26, Qureshi et al. disclose the claimed invention, except for communicating said alert signal to a security management system; and operating said security management system to initiate at least one security operation in response to said alert signal.

Chan et al. teach communicating said alert signal to a security management system; and operating said security management system to initiate at least one security operation in response to said alert signal (see paragraphs 0029, 0030, 0084, and 0090).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Qureshi et al.'s method to include communicating said alert signal to a security management system; and operating said security management system to initiate at least one security operation in response to said alert signal, as taught by Chan et al., in order that network degradation event can be normalized.

As to claims 4 and 12, Qureshi et al. also disclose controlling the firewall at which said closing delay exceeding said threshold was detected to drop traffic until the detected closing delays at said firewall no longer exceed said threshold (see col. 19, lines 3-27).

#### ***Allowable Subject Matter***

7. Claims 6-8 and 18-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

8. Applicant's arguments with respect to claims 1-5, 9-17, 25, and 26 have been considered but are moot in view of the new ground(s) of rejection.
